According to Syllabus of State and Central Level Pharmacist Entrance Exams

The test series is designed for the preparation of Pharmacist Examination and promises to deliver its finest in the exams.

TARGET PHARMACIST

YOU CAN JOIN THIS TEST ANY TIME

YOU MAY JOIN THE TEST SERIES ANY TIME, STUDENTS MAY ENQUIRE AT ANY TIME ABOUT THE COMPLETE DETAILS

Time: Each Test will be of 90 min (1:30 Minutes)

- Question In Each Test is – 100
- Place of test- Your College/Institution's Net, Any Cyber Cafe or wherever internet facility can be available.
- Day & Timing of Test: Any Time , Any Day – Till your exam
- Negative Marking : Same Pharmacist exam (1 marks deduction on every wrong answer)
- You can avail these papers any time as well as at anyplace
- There is no schedule. You can make your own schedule, however for classroom test schedule will be given to the students on respective centres.
- Result and secured Rank of test will be displayed after completion of the every test on the screen.
- Solutions /Correct answers will be provided after TEST SERIES or you can ask with us BY *SENDING A MAIL TO US on gdcgpat037@gmail.com.*

Total 15 Test will be conducted	
Basic Level Test	04
Full Syllabus Test (Mock Test)	06
G.K, G.S, Maths, English, Reasoning	03
Previous year Paper	02

SYLLABUS OF TARGET PHARMACIST			
Test Type	Test Number	Topic	Number of Questions
BASIC TESTS			
	Test Number-1	Pharmaceutics - Pharmaceutical Technology (Solution, Suspension, Emulsion, Semisolid, Suppositories, Tablets, Capsule, Microencapsulation, Sterilization, Sterile Products, Aerosols, CDDS, NDDS)	75

<p>Basic Level Test</p>		<p>etc.). Pharmaceutical engineering (Filtration, Size reduction, Size separation, Crystallization, Drying, mixing and Distillation etc.)</p> <p>Pharmacology- Pharmacological principles (Pharmacokinetics, pharmacodynamics, Aspects of Pharmacotherapy, Adverse drug effects, Clinical Trials) Drugs acting on ANS, CNS & PNS System.</p> <p>Chemistry- Physical Chemistry, Synthesis, SAR & Metabolism of drug acting on ANS, PNS and CNS Drugs.</p> <p>Pharmacognosy:- Analytical pharmacognosy, Plant tissue culture, Biosynthetic pathway, WHO guidelines, Resins, Tannins, Lipids(Fixed and Volatile oils)</p> <p>Pharm Analysis- Flame photometry, Fluorimetry. Assay of different drugs, Gravimetric analysis, Titrametric analysis.</p>	
	Test Number-2	<p>Pharmaceutics- Physical Pharmacy (Rheology, Colloids, Interfacial phenomena etc.) , Cosmetics Technology (Lipstick, Shampoo, Creams, Nail preparation, Depilatories, Dentifrices etc)</p> <p>Pharmacology- Antimicrobial agents (Sulfonamides, Beta-Lactum antibiotics, Tetracyclines and Chloramphenicol, Aminoglycosides, Macrolides, Antitubercular Drugs, Antileprotic drugs, Antifungal drugs, Antiviral drugs, Antimalarial drugs, Antiamoebic , Anthelmintic drugs) Anti-cancer, Immunosuppressant compounds.</p> <p>Autocoids(Histamine, Prostaglandins, Leucotrienes, Serotonin), Antigout & Antiarthritis. Respiratory system.</p> <p>Chemistry:- Autocoids, NASIDS, Antigout & Antiarthritis, Antimicrobial agent I (Sulfonamides, Beta-Lactum antibiotics, Tetracyclines and Chloramphenicol, Aminoglycosides, Macrolides, Antitubercular Drugs, Antileprotic drugs, Antifungal drugs, Antiviral drugs, Antimalarial drugs, Antiamoebic, Anthelmintic drugs). Synthesis, SAR & Metabolism of drug acting on cancer.</p> <p>Pharmacognosy- Alkaloids, Carbohydrates.</p> <p>Pharm Analysis- Spectroscopic Principle (UV & Visible spectroscopy, IR ,NMR, Mass Spectroscopy , ESR, etc.)</p>	75
	Test Number-3	<p>Pharmaceutics- Dispensing Pharmacy</p> <p>Pharmacology- Pharmacology of Hormones and related drugs. Drug acting on blood & blood forming agent & GIT, Drugs acting on urinary system (Electrolyte balance & Diuretics), Respiratory System</p> <p>Chemistry- Organic Chemistry, Different name reactions and their mechanism. Chemistry of Hormones, Synthesis, SAR & Metabolism of drug acting on Renal system and Synthesis, SAR, metabolism of drug acting on blood system & GIT, Hormones and related drugs chemistry.</p> <p>Pharmacognosy- Glycosides</p> <p>APHE, Hospital and Community Pharmacy</p> <p>Pharm Analysis- Potentiometry, Amperometry,</p>	75

		Conductometry & Polarography (Basic principle & instrumentation).	
	Test Number-4	Pharmaceutics - Biopharmaceutics, Forensic Pharmacy- Schedule, Pharmacy Act, D&C Act and Rules. Pharmacology - Drugs acting on CVS. Chemistry - Inorganic Chemistry, Synthesis, SAR & Metabolism of drug acting on CVS. Pham Analysis - Chromatographic Techniques. ESR (principle), Thermal Technique (DSC & DTA). Mass spectroscopy & X- Ray's diffraction. Biochemistry -Metabolism, of carbohydrate, lipid, protein & Nucluc acid, Biochemical role of hormones, Vitamins, Enzymes etc). Biotechnology - Biotechnological principals, Vaccines and sera, Immunology. Microbiology - Introductory part of microbiology, microbial assay, Serological & Diagnostic tests & Sterilization technique	75
